

Intel® Dot Station

Intel® Inside, it's a computer made entirely by Intel®.

Intel® introduces a NEW, low cost, all-in-one, compact, easy to install and use, PC (Personal Computer). Its design allows a minimum use of space. This is all-in-one compact, enviable, cute design with colour monitor integrated with 1 Year Warranty.

Computers can perform mostly all works required in any office, educational institutes or homes. It can be used for browsing internet, sending/receiving emails, instant messaging, word processing, accounting, image editing, scanning, desktop publishing etc mostly for all types of regular computer works.

Common Configuration -

1. Intel® 10 / 100, Ethernet / LAN Card for connecting to server, broadband connectivity etc.
2. Creative Sound card.
3. 2 stereo speakers in built (JBL).
4. 3 USB 1.1 ports.
5. 56 Kbps fax modem voice V 90.
6. Compact keyboard.
7. Touchpad mouse in built in the keyboard (like laptop computers).
8. 14" colour monitor, 0.28 DP, 1024 x 768 integrated.
9. All manuals, cables, original Intel sealed box packing.

Application

Computers can be successfully used as Thin Clients through software. These PCs can also be used as independent computers. Possible areas of applications are:

SMEs	Corporates	Hospitals	Schools	Colleges	Cyber Cafes	BPOs	KPOs	Publishers	Homes
------	------------	-----------	---------	----------	-------------	------	------	------------	-------

- The 10GB hard drive (upgradable up to 80GB or higher) allows you to download files and store them locally.
- Use the 56k built-in modem to browse the web or connect to broadband or a home network with the built-in 10/100 Ethernet port / LAN Card
- Great for Offices, call centres, BPOs, as networked terminals, high security applications, ideal for home, PC for Internet surfing, Educational entities and schools, Libraries and Internet Access Points, Driving Schools and Academies to run Tests and Courses, ISP's and Cable operators, etc.. The perfect solution for companies investing in thin clients.

Easy 3 step setup, just plug in your keyboard with touchpad, plug in the phone cord/network cable, then plug the power cord to the wall, and you are ready to go!

Computer 1

- Intel P-III Processor
- 256MB Memory
- 10GB Hard Drive (Expandable upto 80GB or higher)
- Integrated Video Controller
- Integrated Intel 82557 10/100 Ethernet Pro
- Integrated Ensoniq Creative Sound Controller
- Built-in Speakers
- USB Keyboard with a Touchpad Mouse
- 56k V.90 Modem
- Convenient built-in phone
- 3 USB ports
- 14" colour monitor, 0.28 DP, 1024 x 768 integrated

Price range starts from Rs. 7000/-* onwards

Optional :

- Keyboard + Optical Mouse @ 300.00
- External Slim CD-Rom @ 700.00
